## THE RAILROAD PROPOSITION.

THE REPUBLICAN has carefully considered the proposition laid before the people of Maricopa county by the Maricopa and Phoenix Railroad Company and is inclined to it favorably, provided it is made in good faith. It is, however, announced at a critical period, when the people are unusually skeptical.

The offer is somewhat vague and indefinite and does not seem to come in the regular order. If the Maricopa and Phoenix Railroad Company had made this offer to the Board of Supervisors, under the certificate of its President and Secretary and under the seal of the company, and to the Governor, for recommendation to the Legislature, there would have been about it an air of business that would have carried with it the conviction of honesty of purpose.

Then, too, the statement that, in view of its purpose to extend its line, it has "purchased the organization of the Arizona Central Railroad Company," is also vague. Of what does the organization consist? Does it mean franchise, survey, right-of-way, or what?

The Maricopa and Phoenix people have been bitterly fighting the North and South railroad proposition, a measure in which the people of this valley are deeply interested, and they cannot complain if their proposition is regarded with some suspicion. It might be utilized to kill the new bill pending in Congress.

THE REPUBLICAN trusts that the company will make its proposition in a regular, business-like way, so that intelligent and proper action may be taken on it, and the foundation laid to bring the subject before the legislature. If this is done, THE REPUBLICAN will gladly use every means at its command to secure the concessions desired and to lend its aid in securing right of way, &c. We believe that this is the sentiment of the whole community and that without reference to past disagreements and differences the entire valley would come to the aid of the proposition. This cordial support the scheme will always lack in its present shape.

## T'WAS DIFFERENT THEN.

The attempts of the Citizen and its principal owner, Royal A. Johnson, and his man Brown, to make the people of Arizona believe that the government of Arizona is perfectly safe under this management is having the effect to create popular opinion against this project.—Herald, Sept. 14, 1889.

To this the Citizen responded as follows: "The attempt of the Herald and its principal owner, Colonel Christy, and his man Morford, to make the people believe that Arizona was not safe under Territorial management and that their only salvation lay in a Constitutional Convention, was a most wretched failure. Further comment is unnecessary, pending the meeting of the Maricopa County Central Committee. We modestly await the solution."

PRUNES in Sonoma county, California, command \$40 a ton, and farmers refuse to sell at that figure.

THE Democratic County Central Committee has been called to meet in Phoenix on July 21st, at 10 o'clock.

MATTERS are rapidly reaching a financial crisis in Buenos Ayres. Gold was at a premium of \$202, yesterday.

THERE is a coal famine in San Francisco and the prices have gone so high that housewives are in absolute despair.

JUDKINS, of the Fresno Republican, recently married, says: "A wit remarks that love knots should be tied with a single beau."

MISS NANCY is still scolding in the Herald. Go it, old woman, if it does you any good. It surely does no one else any harm.

Not a single high grade Fourth of July speech, sparkling with originality and eloquence, has come under our observation. Is the country mentally degenerating?

THE strength of the Granger movement in Kansas may be judged from the fact that 20,000 farmers were in line in a great street procession in Emporia. And every mother's son of them is favorable to Senator Stanford's farm loan bill.

NOTHING further has been heard of the British Columbia pirates which were reported as fitting out near Victoria. They probably were informed of the danger in which they were placing themselves.

EUREKA, in California, is so absolutely anti-Chinese that some Chinese in San Francisco have petitioned the council of that city for permission to go there to disinter and remove bodies of Chinese. As the Eurekaans are glad to get rid even of dead Chinamen the request was granted.

TRoubles has come to the Benevolent and Protective Order of Elks, a secret, social and benevolent order, which has been rapidly growing all over the country and is now cursed with a dual grand lodge. The mother lodge, No. 1, of New York, is in session in that city as a grand lodge, claiming that sole and exclusive jurisdiction over the order must

be exercised from a grand lodge at New York. The representatives of all the other lodges in the country are in session at Cleveland, Ohio, and are denounced as clandestine by the dignitaries of No. 1. The lodges of the country will stand by the Cleveland Grand Lodge.

## EMPLOYEES AS STOCKHOLDERS.

Concerning the published rumor that the officers of the Illinois Central Railway Company are seeking to induce their employees to invest their savings in the securities of that corporation, President Fish has said that the company has no stock for sale, but that it proposes to assist any of its officers or employees to buy one share at a time, at a fair market price, the purchaser to pay for it in sums of not less than \$5. On these sums interest will be credited, and when the share is paid for he can, if he wishes, begin the purchase of another. In this way, it is hoped to enlist every frugal person in any way connected with the road as a partner on a basis of the utmost liberality to the small proprietor. It is not proposed to form a savings bank or benevolent association, the experience of the company being that the men prefer to handle these matters for themselves. The purchaser, under this scheme, may at any time have his contract cancelled and the money returned to him with interest. Thus the company assumes the entire risk of a fall in price of the shares and the expense of doing the work.

It is believed that this plan, when properly presented, will induce greater thrift among the men and through their example spread among the people a habit of saving and investing in the securities of the road which runs past their doors. The ultimate object is to produce a community of interest between the citizens and the railways, which shall give a perfection of railway service and the most profitable of investments for the small proprietor in sound, dividend-paying railway shares. The experiment will be watched with much interest. The man who has a financial interest in the corporation by which he is employed is a safer and better man than the one whose sole interest is in the monthly stipend. A dozen or two of shares held by each of the vast army of men employed on the long lines of railways of the country would make the employee a factor to be considered at the annual elections.

## ADVERTISE IN THE REPUBLICAN.

So the "Star and Citizen combine" think that the longest subscription list should entitle the lucky paper to all the advertising that any public officer has to dispose of. Editor Herbert Brown of the Citizen, if that is your honest belief then in your blindest style we modestly rise to remark to United States Register Herbert Brown to send all his land office publications to THE REPUBLICAN, as we have the largest subscription and circulation of any daily paper in Arizona. This we stand ready to establish in any impartial way Register Brown may indicate. Send in those ads., Brother Brown, or once more stand convicted of inconsistency.

The growth, improvement and general character of a community is best measured by the condition of its public schools. The little border city of Nogales shows considerable progress in this direction, as the following comparative statement will prove:

	1889-90	1888-9	Increase over Previous Year
Whole number days taught	373	318	55
Whole number attended	12,311	7,777.5	4,533.5
Whole number absent	1,634	1,634	0
Whole number tardy	1,155	1,155	0
Whole number boys enrolled	130	69	41
Whole number girls enrolled	67	40	27
Total boys and girls enrolled	177	109	68
Average daily attendance	65.16	46	18.16
Percentage of attendance over previous year	175.9	129.9	46
Pupils in Grammar Grade	36	30	6
Pupils in Primary Grade	141	79	62
Number of months school maintained	10	8.5	1.5
Valuation of sites, school houses and furniture	\$4,000	\$2,500	\$1,500
Valuation of school apparatus	\$400	\$300	\$100

For these figures we are indebted to Mr. John Desart, Clerk of the District, who takes a lively interest in school matters. It must be remembered that Nogales is not yet an incorporated city and that this splendid progress has been made under the general law. Nogales is building rapidly and substantially and will soon take rank as among the leading towns of the Territory.

## He Has Smelt Powder.

[Arizona Silver Belt.]  
Col. Mariano Samaniego, of Governor Wolfley's staff, is no carpet knight. He has smelt powder and been within striking distance of musketry when the odds were greatly against him, and did not give leg bail, but held the field.

## Marion Happy at Last.

[Prescott Courier.]  
Governor Wolfley has made one good appointment, that of George Luhrs to be Asylum commissioner.

## THE UNION MINE.

A Rich Property Leased to William Farish for One Year.

The Union Mine, Winifred district, one of the best properties in Arizona, has been leased by William Farish, of Denver, for one year.

The only drawback the mine has ever had has been the lack of water. The supply furnished by the mine is very small, and the 10-stamp mill has been running only when there has been water in the sump. Mr. Farish will strike it rich in this respect, for the mine, which has been sunk about 450 feet, has filled during its long season of inactivity, with about 300 feet of water. This will furnish enough water to run the mill for three months, taking the ore from the various drifts downward as the waters recede. The ore is a sulphuret of high grade, and much of it will pay for transportation to a smelter. Connected with the mill are several concentrators, which will be run to their full capacity.

Mr. Shaw believes that a pipe line from Cave Creek will be put in to supply the mill. When this is done, Winifred district will wake up from its long stagnation and show to the world what a really rich mining district is capable of.

## DOING GOOD WORK.

Fruit of Dr. MacLennan's Labors in Phoenix.

## THE MOST STUBBORN DISEASES YIELD.

Spontaneous Testimonials from Well Known Citizens of the Salt River Valley.

A reporter overheard, on Washington street, yesterday, a conversation that interested him greatly. Peter Rasmussen, a well-known farmer located a few miles below Phoenix, was replying to the congratulatory of a friend upon his very apparent improvement in health.

"Yes," said Mr. Rasmussen, "my condition of comparative health is indeed wonderful, when it is considered that but a few weeks ago I was but a physical wreck. With kidney and liver deranged to such a degree that physicians had practically given me up as incurable, I lost all hope and made my will with the full expectation of dying within a short time. While I was in this condition of mind and body, Joe Gilmour came to me and counseled that I visit Dr. MacLennan. I expressed the opinion that my case was beyond the reach of human skill, but he persisted and fairly packed me off to see the Doctor, telling me on the way of the almost marvelous manner in which he himself had been cured. The first treatment at the hands of Dr. MacLennan gave me strength and hope and today I am well. I cannot speak in too high terms of the physician who has done all this for me. His work is marvelous and every day I hear of cases of sickness equal to mine in severity that have yielded to his skill."

GILMOUR'S EVIDENCE.  
Pursuing the subject the reporter called around on Mr. Gilmour. He is a member of the thriving firm of Gilmour Bros., blacksmiths, whose extensive shops occupy the southwest corner of Center and Adams.

In response to a query relative to his recovery from sickness, he emphatically said: "I owe my restoration to health to the treatment I have received from Dr. MacLennan. For two years I had suffered from Laryngitis until my voice was lost to that extent that I could not speak above a whisper, my general health was undermined, and I was going fast on a decline. I tried everything—doctors, the Hot Springs and all—and nothing seemed of any use. Shortly after Doctor MacLennan came here, I placed myself under his care. Today, I feel better than for years past, my throat trouble has disappeared, and I can yell like a cowboy."

Continuing his investigation, the reporter called on the Doctor himself, at his parlors on the second floor of the Monihon building. The reception room was found crowded with ladies, while on the balcony were seated a number of men awaiting their turns.

The reporter retired to await an interview with the Doctor, and, meanwhile, engaged in conversation with Hon. J. D. Monihon, Chairman, of the Board of Insane Asylum Directors, whose office adjoins that of the Doctor. "There seems to be a continuous stream of people," said Mr. Monihon, "pouring into the next room all day long. They are afflicted with almost every ill that flesh is heir to, but I hear from them as they go away, nothing but the highest praise for Dr. MacLennan, and confident hopes for complete recovery. I know, personally, of a number of extraordinary cures he has made, that show him to be a most able physician."

A CASE OF PARALYSIS.  
When opportunity offered admittance was gained to the operating room, where a cordial greeting was received from the Doctor. He was working upon a patient under treatment for paralysis. The mode of treatment seemed to be a combination of electricity, massage and medicinal applications.

The gentleman being operated upon is named Laurence Wentling. During a short absence of the Doctor he grew enthusiastic in his praise of the treatment received.

"Just four years and three months ago," he said, "I was sitting on Lynx creek, near Prescott. One morning, arising I was stricken as quickly as though a bullet had hit me with paralysis in the right side, arm and leg. I was taken to Prescott and have since spent in Physician's fees alone over \$700. I was at Castle Creek Hot Springs when I heard that Dr. MacLennan was in Phoenix and took the earliest opportunity of coming down and consulting him. I have been under his care for two weeks and see"—he raised his arm above his head—"I can use my arm without trouble and am able to walk without crutches. I am deeply grateful for the good that has been done me, when recovery seemed out of the question."

## SPINAL TROUBLE CURED.

Another patient whose treatment was witnessed was G. K. Smith, the cleaner and dyer, whose shop is located on Cortez street, opposite the Monihon block. He has been troubled for several years with what the Doctors called Sciatica and for five months past has been unable to do any work at all. He placed himself under Dr. MacLennan's care about ten days ago, when it was discovered that his ailment was a curvature of the spine, caused by the wasting away of the tissue between the vertebrae of the lower portion of the spinal column. He is now much improved. His back is regaining its suppleness, showing that the natural oil is once more being secreted and he confidently expects an entire cure before the Doctor leaves.

Dr. MacLennan is a man of fine physique, with every indication of strong natural magnetic power. He ascribes his success in the treatment of the chronic diseases that are brought to him to the improved methods he uses and to the superior apparatus he brings to his aid. Those who need his services should not delay seeing him, for Phoenix cannot hope to long retain him.

## REDONDO HOTEL

## Redondo Beach, Cal.

This new and magnificent hotel was opened to the public May 1st. It is the most thoroughly equipped and best furnished house on the Pacific Coast. Two hundred and seventy-five rooms, replete with every convenience: fire place, hot and cold water, incandescent lights, electric call and return system. Standing in the center of a twenty-two-acre tract, under high cultivation, two hundred feet back from the ocean bluff. Arc lights on the grounds. Finest surf bathing in America. The house has a fine elevator and by far the handsomest music and dancing hall in California. The dining room is a perfect gem of artistic perfection, superbly furnished and so arranged that every seat commands a view of the ocean. There is a gallery at one end, where a fine band plays for the evening dances; also playing on the veranda in the morning. In the music and dancing room at night. Morning Germans will be a feature of the house. The cuisine will also be a prominent factor. The house and surroundings are simply perfection—new, sweet and clean—and must be seen to be appreciated. The Atchison, Topeka and Santa Fe runs six trains daily from Los Angeles. The company own their own railroad, running to Los Angeles, connecting with the Grand Avenue cable system, running twelve finely-equipped trains daily each way, landing passengers right back of the hotel. There is a pier, where boats from San Francisco, San Diego and other points make regular landings. Steam and sailing yachts can be had. The fishing is the finest on the coast. There is a bluff and interior drive, commanding a fine view of the ocean, San Gabriel valley, Wilson's Peak, Old Baldy, Sierra Madre range of mountains. Terms same as other first-class houses. Special rates for permanent and families. All letters address to the manager.

## HINTS

Are always acceptable, especially so when they relate to dress; then the ladies appreciate them. These warm days we would suggest a house wrapper of a challac or a cool lawn, a street dress of saten or an India silk. Gingham, in dress effects, are also much worn. In these lines our stock is unusually complete, and as regards prices they compare very favorably with those East.
